*The Institute for Life Course and Aging has developed Workshops to meet the demand for ongoing professional development among healthcare workers and other professionals working with the aging population.*

Workshops are held online and are 4 weeks in length. They offer participants the opportunity to work at their own pace, interact with instructors and with other participants from a variety of perspectives and backgrounds.

***Workshops are only offered if there is sufficient enrolment by the deadline.***

Information and Registration are online at:

[www.aging.utoronto.ca](http://www.aging.utoronto.ca)

**Cost: \$240 each 4 week workshop  
(\$120 for students & seniors)**

Your Time is Your Own: We suggest people spend 2 to 3 hours a week and login at least 2 to 3 times a week to better engage in the ongoing discussion board.

No Grades or Homework: There are no tests, or graded assignments, or homework per se, though the instructor may ask you to reflect on specific questions in order to better engage you in the materials.

Letter of Completion: The workshops are informal. Instead of certificates, we send a letter of completion confirming that you participated and outlining the average time spent and topics covered.
